--

We are pleased to give our reference and to thank you for your work, services and follow up with the projects of our booths at the international trade exhibitions **WIRE 2018** in Dusseldorf at in **AGRITECHNICA 2017** in Hannover.

We were satisfied with the booths construction, communication process and provided services; although the fairs were completely different, your company was able to create stands that suited our needs, and they both met with success on visitors.

Your designs and realisations were on time and within the expected budgets. It was a pleasure to work with the project management as well as with the constructing team.

We will surely come back to you as our contractor for the further exhibitions.

Best regards.
